TECHNICAL SKILLS :

- ✓ **Frontend** : HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap.
- ✓ **Backend** : Node.js, Express.js, Authentication & Authorization (JWT, Firebase).
- ✓ **Database** : MongoDB, Firebase (Authentication, Firestore, Realtime Database).
- ✓ **Tools & Technologies** : Git, GitHub, Vercel, Render, Postman, Local Storage, API Integration, Nodemailer, formspree, socket IO, Gemini API (basic), TypeScript (basic)

PROJECTS :

1. Matrimonial Web Application

- A full-stack matrimonial platform using React.js, Node.js, Express.js, and MongoDB
- Implemented secure JWT-based authentication and user profile management.
- Features include profile discovery, interest request, matching, real time chat and notifications.

2. E-Commerce full stack application

- Built a full-stack e-commerce platform using React.js, Node.js, Express.js, and MongoDB
- Implemented role-based authentication (Admin, User, Employee)
- Features include product management (CRUD), shopping cart, order system, and admin dashboard
- Developed REST APIs and handled full backend logic

3. Blog application

- Developed using HTML, CSS, JavaScript, Node.js, and MongoDB
- Implemented authentication system
- Users can create, view, and delete blog posts
- Integrated local storage with backend functionality

4. Routine tracker application.

- Built with React.js, Tailwind CSS, and Firebase.
- Implemented Firebase Authentication.
- Tracks daily routines with weekly, monthly, and yearly progress history.
- Data stored and managed using Firestore.
